👤 PROFILE

Recent postgraduate in mathematics with a strong foundation in data analytics, deep learning, and natural language processing. Skilled in statistical analysis, machine learning, and data visualization using tools such as SQL, Python, and PowerBI. Seeking an entry-level data analyst position to apply my skills and knowledge to real-world problems and gain industry experience.

💡 SKILLS

Python Pandas, Numpy, Matplotlib, Seaborn, Flask, Plotly, Dash, Sklearn etc.	● ● ● ● ●	Power BI DAX, Data Visualization, Dashboarding etc.	● ● ● ● ●
Tableau Data Visualization, Analytics, Dashboards etc.	● ● ● ● ●	Databases SQL and Mongo DB.	● ● ● ● ●
MS-Office Excel, Power point, Word, Access.	● ● ● ● ●	Team Leader I lead a group of interns under me, monitor their work and as a team we solve various task in my present company.	● ● ● ● ●
HTML/CSS Flask and django api frameworks	● ● ● ● ●	R Software ggplot2, dplyr, plotly kniter, data.table, mlr3 etc.	● ● ● ● ●

📁 PROFESSIONAL EXPERIENCE

2017 – present	Teacher(Mathematics), Self Employed I am a private tutor in mathematics and teach mathematics to students of class XI and above, and science and mathematics to students from class VIII to XII.	Chakdaha, India
02/2022 – 11/2022	Mentor of NH Mapping, Highway Delite Monitor the work of interns under me, give training and work on the backend maintenance of the website.	Work from home, India
08/2021 – 09/2021	Data Analyst Intern, The Sparks Foundation	Work from home, India

📁 PROJECTS

07/2022 – present	Stores Sales Prediction, Creating a machine learning model that can accurately predict sales for Big Mart Stores <ul style="list-style-type: none">Developed a machine learning model to predict sales for Big Mart Stores using data on various features such as location, product type, and promotional activitiesUtilized Python libraries such as Pandas and scikit-learn to clean and analyze the data, and trained and evaluated the model using a combination of supervised and unsupervised learning techniquesImplementing a continuous integration and deployment (CI/CD) pipeline to automate the model training and deployment process
12/2022 – 01/2023	BBC News Category Classification, <i>Conducted a natural language processing (NLP) analysis of BBC news articles to classify them into different categories</i> <ul style="list-style-type: none">Used NLP techniques to classify News Category as Entertainment, Political, Tech or SportsUtilized Python libraries such as Pandas, scikit-learn, and NLTK to clean and analyze the dataTrained and evaluated a Deep learning model (BERT) on a dataset of over 1400 News ArticleAchieved an accuracy of 97.96% on the test set
10/2022 – 11/2022	Tweets Sentiment Analysis, Data analysis and machine learning using Python and NLTK <ul style="list-style-type: none">Used NLP techniques to classify tweets as positive or negativeTrained a machine learning model on a dataset of over 10,000 tweetsAchieved an accuracy of 95% on the test set

06/2022 – 07/2022

California Housing Price Estimation,

Developed a machine learning model to predict housing prices in California using data from the California Census [↗](#)

- Utilized Python libraries such as NumPy, Pandas, and scikit-learn to preprocess and analyze the data
- Trained and evaluated the model using cross-validation and various metrics such as mean squared error and R squared.
- Created a machine learning model that achieved an R squared value of 0.87 on the test set, demonstrating strong predictive power
- Successfully implemented ML Ops practices, allowing the model to be trained and deployed automatically, reducing the time and effort required to maintain the model.

06/2022 – 06/2022

Algerian Forest fire prediction,

Created a machine learning model that can accurately predict the likelihood of future forest fires in Algeria [↗](#)

- Conducted a data analysis of past forest fire occurrences in Algeria, including meteorological and vegetation data
- Developed a machine learning model to predict the likelihood of future forest fires using the data
- Utilized the Pandas library to preprocess the data and the scikit-learn library to train and evaluate the model
- Achieved an accuracy of 98.76% on the test dataset

06/2022 – 06/2022

Adventure Works Reports, Analyzed sales data for Adventure Works Cycles using Power BI [↗](#)

- Created a comprehensive dashboard that allowed the sales team to track their performance and identify opportunities for improvement
- Created a dashboard to track key performance indicators such as sales, revenue, profit, and returns
- Utilized Power BI features such as filters, slicers, and visualizations to present the data in an interactive and easy-to-understand format

03/2022 – 04/2022

Puppy adoption site,

Designed and developed a web application using the Flask framework in Python to allow users to browse and adopt puppies [↗](#)

- Created a full-featured web application that allows users to browse and adopt puppies, including a form for submitting adoption applications
- Implemented a form for users to submit applications to adopt a puppy, including validation and error handling
- Stored the application data in a MySQL database and used Flask-SQLAlchemy to query and manipulate the data
- Utilized Jinja templates to create dynamic web pages and integrated Bootstrap for a responsive design
- Successfully deployed the app on Heroku, making it accessible to users around the world.

03/2022 – 04/2022

Review and Image Scrappers, Flipkart Review Scrapper and google image scrapping [↗](#)

- Developed a Python script to scrape product reviews from Flipkart and images from website (<https://github.com/Sourav9827/Image-Scraper.git> [↗](#))
- Developed a Python script to scrape images from google search. (<https://github.com/Sourav9827/ReviewScraperFlipkart.git> [↗](#))
- Utilized the BeautifulSoup library to parse HTML and extract relevant data
- Stored the data in a sqlite database and used the Pillow library to process and resize the images

EDUCATION

09/2021 – present

Bachelor in Education (B.Ed), W.B.U.T.T.E.P.A

Santipur, India

02/2021 – 02/2022

Diploma in Information Technology, Nehru Yuva Computer Shiksha Kendra

Chakdaha, India

08/2019 – 08/2021

M.Sc Mathematics(Pure), University Of Kalyani

Kalyani, India

07/2016 – 07/2019

B.Sc (Hons.) Mathematics, University Of Kalyani

Kalyani, India

11/2021 – present

Full Stack Data Science program, [ineuron.ai](#) [↗](#)

Data Science and Analytics, Machine Learning, Deep Learning etc.

CERTIFICATES

Data Analytics Consulting Virtual Internship(KPMG) (Data Quality Assessment Data Insights Data Insights and Presentation May 8th, 2021)

Data@ANZ Program (Exploratory Data Analysis Predictive Analytics May 13th, 2021)

LANGUAGES

English

Hindi

Bengali

COURSES

09/2020 – 11/2022	Introduction to R Software, NPTEL
07/2021 – 10/2021	Learning Analytics Tools, NPTEL
07/2021 – 10/2021	Probability for Computer Science, NPTEL
07/2021 – 09/2021	Introduction to Machine Learning, NPTEL
04/2021 – 05/2021	Introduction to Machine Learning, Duke University (Coursera)
01/2021 – 04/2021	Data Analytics with Python, NPTEL
01/2021 – 03/2021	Data Science for Engineers, NPTEL
09/2020 – 11/2020	Programming, Data Structures And Algorithms Using Python, NPTEL
09/2020 – 11/2020	Introduction to R Software, NPTEL
09/2020 – 10/2020	Python for Data Science, NPTEL
